

## GOD THE DESIGNER # 4

*The sun rises on*

### **A BRAND NEW DAY**

**Gen 1:9** And God said, Let the waters under the heaven be gathered together unto one place, and let the dry land appear: and it was so.

*This caused an enormous shift in the earth's crust, a portion sank and became as God called them seas, other parts lifted up and became what God called earth.*

*This is the only record that man has of how things were created and formed and that by the only person who was there. It is a true record of what and how everything came into existence, and this word of the living God has never changed.*

**Gen 1:11** And God said, Let the earth bring forth grass, the herb yielding seed, and the fruit tree yielding fruit after his kind, whose seed is in itself, upon the earth: and it was so.

*Up to now all the creation was on a giant scale, the creation of the earth core, the mantle of water, the light from the presence of God, the enormous space to divide the waters below from the waters above, then moving the waters to one place and the dry land appearing.*

### **THE VEGETATION**

*But now the earth is caused to bring forth in one day all the lovely vegetation we have, from the smallest lichen to the massive oak, cedar and redwood trees, the fine grasses, and the herbs for our health, and fruit of every kind that is pleasant to eat.*

*Not only did God cause these to grow, but our great designer God caused this vegetation to produce seed, not any sort of seed, but seed after his kind, and fruit with seed after his kind.*

*God designed these trees to pump water from the root of the giant tree to the highest leaves with no apparent power source.*

**Isa 45:18** For thus saith the LORD that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I *am* the LORD; and *there is* none else.

*Because everything happens just as it is recorded in the bible we can be sure there is a God. And God saw that it was good. And evening and morning day 3*

*On day one God shone out of darkness and divided the light from the darkness, but now he does one of the most outstanding and enormous projects so far, for sheer size nothing comes near it.*

### **THE UNIVERSE**

**Gen 1:14** And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years:

*Human beings cannot comprehend the size of the universe, every time they build a bigger and better telescope they find more and more distant stars or galaxies.*

*At the speed of light you can circle the earth seven times in a second, go to the moon in two seconds, and arrive at Mars in four minutes, in four and three tenth years you will reach the nearest star. The Milky Way is so large that at the speed of light it is estimated you would take 100,000 years to pass across it, yet God created all this universe in one day, and with a great variety as well.*

**1Co 15:41** There is one glory of the sun, and another glory of the moon, and another glory of the stars: for *one* star different from *another* star in glory.

*After traversing such great distances and producing so much matter, it is as if God now brings us back to earth in V16,*

**Gen 1:16** And God made two great lights; the greater light to rule the day, and the lesser light to rule the night: *he made* the stars also.

*The greater of these lights to shine through the day every day, and though the greater light it never intrudes into the night. And the beauty of it all is that it all works so wonderfully and symmetrically.*

*Scientists can predict with precision where the stars will be a long time in advance and arrange the departure times of their space craft to intercept the desired planets etc.*

*Ps.19.1 The heavens declare the glory of god, and the firmament showeth his handywork*

*I think it a fair question to ask, why did God create the earth with all the varieties of plants, why did he put the multitude of stars in the universe?*

**Isa 45:18** For thus saith the LORD that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I *am* the LORD; and *there is none else.*

*Australians love to make and to invent new things, for our health and work and comfort, where did these ideas come from, well God made the first things, and we are made in the image of God, all good things come from heaven above.*

*The Lord made all the types of trees with bark on the outside and sapwood in the centre, leaves to give off oxygen for us to breathe. Where did the seeds get the information to sprout and grow into trees and produce flowers with seeds with information to reproduce again after their own kind?*

#### **OUR NOSES**

*Have you ever wondered how we got our sense of smell, to enjoy the perfume of flowers, how can these things give off a substance that can enter our bodies and send electrical pulses to our brain that give a pleasant or putrid sensation.*

#### **OUR MOUTH**

*Our taste is similar in that we can discern the difference in foods and other substances.*

#### **OUR EYES**

*How marvelous is our sight, he is wisest who reads the word book and the world book, it is estimated that each eye has 130 million rods and 7 million cones connected to the brain by 300 thousand transmission lines, to discern black, white and colour, all marvelously symmetrical, did all this happen by accident ? Or is there a great and loving designer creator.*

*It's vital that we understand these early verses of God's infallible word, power cannot produce itself, material cannot make itself, order doesn't come from disorder, big bangs only produce space with ragged edges, in the real world if we see intricate complicated or symmetrical things we immediately assume there is a designer, the universe we live in has all these qualities.*
