

## PRESERVED MUSCLE SHOCK

*Australian researchers were astounded to recover exceptionally preserved muscle tissue, blood vessels and nerve cells from a fossilized armour-plated fish (Eastmanosteus calliaspis) dated about 380 million years old.*

*That assumed date stretches credulity. In contrast, the Bible warns us not to be ignorant of the cataclysmic global flood (2 Peter 3.5-6) about 3,500 years ago, an event which explains why fossils, like this Western Australian fish, are beautifully preserved in sedimentary rock worldwide. Indeed the reports noted that 'that rapid burial' was a factor in its preservation.*

*The fish's muscles were very much like our red muscles that we use for our most active pursuits such as running. Such shared design features reflect a common Designer for all living things, not common ancestry. (See <[www.creationontheweb.com/homologous](http://www.creationontheweb.com/homologous)>.)*

### **GOD CREATED MAN**

*The sixth day of creation has come, God has lovingly, carefully, perfectly created everything in preparation for this final act of creating man.*

*All that God has created up till now was in preparation for this crowning masterpiece, did you realize that only plants can take the raw elements from the earth and convert them to food, and God did this before he created any of the other creatures of the earth.*

**(Gen 1:29) And God said, Behold, I have given you every herb bearing seed, which is upon the face of all the earth, and every tree, in the which is the fruit of a tree yielding seed; to you it shall be for meat.**

*But now God makes his most profound statement yet,*

**Gen 1:26 And God said, Let us make man in our image, after our likeness:**

*There are two words of particular interest in this statement, **US** and **OUR**, these are plural words that we use every day without thinking and they convey the thought of more than one person, and the second word in particular which is the Hebrew word ELOIM, which is the plural name for the Godhead, one in three, and three in one, which is further substantiated in the OT. and the NT.*

**Deut. 6:4 Hear, O Israel: The LORD our God is one LORD:**

*This portion of scripture makes it abundantly clear that there is but one God, then in*

**Mat 28:19 Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost:**

*Again it is unmistakable that there are three persons in the Godhead. It has been said that if you try to comprehend the doctrine of the trinity you may lose your mind, and if you deny it you will lose your soul.*

### **ADAM'S CREATION**

*We are given in detail how God formed man from the dust of the earth in,*

**Gen 2:7 And the LORD God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul.**

*This can be scientifically confirmed when a dead body decomposes it turns to dust with all the elements and minerals present.*

*When God said, Let us make man in our image, after our likeness: we see a striking similarity to a husband and wife expecting their first baby, they build or buy a home and lovingly prepare a special room for it, everything is done methodically, meticulously and carefully planned, and when it is born it is their baby, they brought it into the world, they care for it, they expect it to love them, to be obedient to them, just as God did for the first man. This is the reason God planned to love man, and he wanted him to return that love, that is what worship is, it is the highest form of love.*

*Adam and Eve were fully developed human beings when God created them, able to love each other and God and to have children right away.*

### **THE SEAL OF GOD'S HANDIWORK**

*How could Adam and Eve and all the animals, fish birds and bugs manage to reproduce right away first time by a chance random process. Evolution has no answer or way to explain how male and female reproductive organs came about at the same time, for if they were not formed perfectly at the first they would be extinct.*

*To believe that a molecule became a man, or that one small spec through one giant leap turned into a species requires an enormous amount of faith and imagination when there is a lack of definite scientific evidence.*

*What makes man totally different from all other of God's creatures;*

*Is not his anatomy, though this is unique, It is not his ability to naturally walk upright, though this is unequalled in the animal species, nor his ability to produce intricate equipment, Or his unique ability to communicate*

*in detail, even his great intelligence and this is wonderfully superior allowing him to fulfill Gods command to fill the earth and subdue it. Gen. 1.26*

*But it is because of his deep, God given spiritual nature, for man is the only one who is made in the image of God.*

**1Th 4:7 For God hath not called us unto uncleanness, but unto holiness.**

**1Th 4:8 He therefore that despiseth, despiseth not man, but God, who hath also given unto us his Holy Spirit.**

*There is a very interesting word in,*

**Psa 8:5 For thou hast made him a little lower than the angels, and hast crowned him with glory and honor.**

*The word ANGELS [plural] is the Hebrew word ELOIM one of the names of the Godhead Gen.1.1*

*Man wasn't made a little better than the monkeys, He was made a little lower than God! So that he could communicate with God and rationally explain the supernatural relationship he has with God, and the emotional relationship to his wife or husband. Evolution, [which believes in the survival of the fittest] cannot explain how the emotional state could originate outside the physical material realm and cause a person to love, care, protect and respond to the needs of another person, to choose between good and evil as Adam was, and to fulfill the unique roll of populating the earth and ruling over it.*

**Gen 2:1 Thus the heavens and the earth were finished, and all the host of them. Finally in,**

**Gen 2:2 And on the seventh day God ended his work which he had made; and he rested on the seventh day from all his sovereign work which he had made.**

*God didn't need to physically rest, but he ceased from the work of creation.*

*This plainly tells us that all of creation was complete and the written word of God takes us into the seventh day of the calendar of God's history of the earth, all that God intended to create was done, nothing was to be added to it.*

#### **HUMAN RIGHTS FOR APES**

*'New scientist' reports how campaigners across the world want governments to grant "human rights" to apes and other animals. They picture an ape holding a sign saying "98% human".*

*(Note that the claim that ape DNA is so similar is now known to be wrong, and it wouldn't prove common ancestry anyway.*

*They reported Peter Singer from Princeton University saying that extending human rights to animals is "the next step in the Darwinian debate".*

*If apes and humans did evolve from a common ancestor then where do we draw the line? There would then be no reason to deny human rights to any animal that shows "intelligence and awareness". But humans and apes are **not** related. Humans are a special creation made by God in His image. Our, moral, spiritual, and eternal value comes, not from what we can do, but from our origin.*
